April 2025

Wear Your Story. Own Your Power.

# *Yasmine*

She curves, she cuts: this is softness – with an edge.

Yasmine's **4.5ct Fancy Vivid Pink Pear** is anything but shy. A razor-sharp tip, VS1 clarity and excellent cut creates brilliance from every angle.

A pavé donut just beneath the surface, set in luminous platinum that amplifies the glow. Finished with a pavé 2/3 band that adds subtle sparkle and texture without stealing the show, Yasmine is bold, feminine, and unmistakably rebellious. \$3,800.

Dark Heart isn't delicate - she's deliberate. This **3.02ct Cushion Brilliant** (VS1, F) is set east-west in a Georgian-style blackened gold bezel, framed by eight claw prongs sharp enough to draw the blood of enemies.

The crisp, clean diamond contrasts with the shadowy setting, creating tension between softness and strength. An open button-back allows light to flood in, amplifying brilliance without sacrificing wearability. Powerful, precise, and unapologetically bold - Dark Heart commands attention. \$2,600.

# *Dark Heart*

We don't sparkle by accident: we burn on purpose.

Emmy is the definition of easy elegance. With a **1.5ct Round Brilliant** diamond elevated just enough for drama (the good kind), and pavé shoulders that add sparkle without the fuss, she's built to shine - in sunlight, candlelight, and yes, even changing-room light.

Her 14k yellow gold band is a classic, lightly dusted with 14 pavé-set diamonds. A four-pronged basket setting lets in light from every angle, while a discreet gallery rail keeps everything secure. Emmy stacks like a dream, wears like a favourite, and flatters every hand she meets. \$1,150.

*Emmy*

Soft power, but make it pavé.

# *Olivia*

Simple? Yes.  
Basic? Never.

Olivia is proof that simplicity is a power move. Featuring a **2ct Oval Brilliant** diamond in dainty-but-durable petite prongs, she's quiet luxury at its finest.

Elevated just enough to stack seamlessly with your favourite bands, her 1.8mm rounded yellow gold band and minimalist basket setting keep things clean, classic, and wearable - every damn day. \$900.

# *Gabrielle*

Statement made.  
Mic dropped.

Named for our co-Founder (because very little lives up to her), Gabrielle is unapologetic full-circle strength. A **1.5ct Emerald-cut** centre sets the tone - clean, commanding, and impossibly chic - while fourteen custom-cut trapezoids cascade down each side in a graduated light show totalling 4.4ct. Think less sparkle, more spectacle.

Gabrielle's 14k white gold geometric flow is sleek, icy, and dramatic in all the right ways. The 2.5mm square band adds structure and balance - because yes, she's bold, but she's built to move with you. \$2,200.

Rosabella doesn't ask for attention - it's commanded. Featuring a **4ct Radiant Brilliant Modified** solo stone with crisp claw-enhanced corners and endless fire, this ring is all about presence. Set in a sculptural cathedral-style setting of rich 18k gold, she's elevated - literally and figuratively - letting light flood through at every angle.

Her stunning silhouette balances clean geometry with unapologetic sparkle. The result? Classic, timeless, beautiful, and bold. \$2,300.

# *Rosabella*

This isn't subtlety - this is spectacular.

Rosabella 2 isn't just an eternity ring - she's a radiant encore. Set with twenty **0.3ct Radiant Brilliant-cut** diamonds (yes, that's 6.0 carats total), she wraps the finger in unapologetic brilliance. Each stone is prong-set in 18k gold to maximise light play, texture, and sparkle from every angle.

Designed to perfectly complement the Rosabella engagement ring - but strong enough to stand solo - this band balances bold presence with refined geometry. The cut is identical, the energy is elevated, and the match? Utterly seamless. \$1,800.

## *Rosabella 2*

Never a supporting act: a spotlight of her own.

# *Huxley*

Because brilliance comes in threes.

Huxley is proof that balance is beautiful. A **1.51ct Round Brilliant** centre is flanked by two vivid 0.35ct lab-grown emeralds - a trio as iconic as cleanse, tone, and moisturise. Petite prongs and a semi-open gallery keep the focus on the stones, letting light pour through for max sparkle and glow.

Set low for comfort and wearability, this piece was made for real life - the kind with movement, messiness, and meaning. Named after Alice's son, Huxley carries the spirit of curiosity, kindness, and timeless style. A ring that is both thoughtful and unforgettable. \$1,300.

# *Alice*

She's not just a ring... She's the story.

Alice is the ring that started it all - our first design, our namesake, and our forever standard. A crisp **3.52ct Asscher-cut** diamond sits at the centre, its step-cut geometry reflecting light in clean, deliberate lines. Framed in a mixed-metal half-bezel setting with an open basket to let light flood in, she balances Art Deco elegance with modern edge.

The 3mm yellow gold band brings warmth and contrast, detailed with vintage-inspired engraving and milgrain that add depth, texture, and storytelling. She's low-set, secure, and made for real-life wear - because beauty should never come at the cost of function. \$1,900.

Rebirth is a celebration of what's next - bold, brilliant, and completely unexpected. Seven **round brilliant diamonds** (five at 0.3ct, two at 0.8ct: approx. 1.55ct total) form an asymmetrical cluster that feels organic and alive, like a constellation in motion.

Set in warm 14k yellow gold with a slim 1.8mm band, this piece doesn't whisper sparkle - it radiates it. There's intention in every angle, joy in every facet. Rebirth was made for milestones: new beginnings, full-circle moments, and anything that marks a shift toward more you. \$960.

# *Rebirth*

The best fresh starts require fireworks.

Willow is all presence and angles; built like armour, it's a piece designed to be sculpturally unapologetic. A **2ct marquise** is set east-west in a sleek bezel, its elongated silhouette framed by a weighty 2.5mm yellow gold band... a semi-signet setting that doesn't whisper.

A small split shank adds unexpected detail, while the open gallery lets light flood in, turning clean lines into full brilliance. The effect? Boldness. Confidence. Utter strength. \$1,900.

# *Willow*

Promise ring? No – this is a power ring.

# *May*

Proof that less is luminous.

May is the definition of quiet brilliance - a channel-set half-eternity ring that delivers sparkle without the spectacle. **Eighteen 1mm round** diamonds are channel-set with precision into a slim 14k yellow gold band, creating a seamless line of shimmer that moves with you.

With a smooth, snag-free profile, she's easy to wear every day — stacked, solo, or somewhere in between. May is made for longevity: the kind of piece you reach for instinctively, gift meaningfully, and keep forever. \$700.

# *Jenna*

Where glow meets grit.

Jenna is a custom dream come to life - a radiant blend of softness, strength, and standout detail. At her heart is a vivid pink **2ct Cushion Modified Brilliant cut**, thick bezel-set in yellow gold to amplify its warm fire. That glowy centre is anchored by a mixed-metal square band, set with shimmering pavé diamonds and edged in vintage-inspired milgrain for texture and depth.

Chunky enough to feel substantial, yet delicate in its contrast, Jenna walks the line between elegance and individuality. She's made for the person who knows that romance can be powerful, and that pink doesn't always mean soft. \$1,900.

Ellie is the art of balance, wrapped in gold. A **1ct Emerald-cut** and a **1ct Pear** sit side by side in a perfect pairing of clarity and curve, geometry and glow. With a v-tip and tiny micro-bezel wrapping the pear, and petite prongs cradling the emerald, this simple setting lets the stone shine.

Set on a 14k yellow gold offset band, Ellie turns tradition on its side - literally - with an open basket that lets light flow through every facet. She's striking, sculptural, and effortlessly cool. \$1,600.

# *Ellie*

Why choose one when you were made for both?

Kate is all about clarity - in diamonds, in design, and in energy. A **1.5ct Emerald-cut** diamond takes centre stage, flanked by two 0.45ct trapezoid side stones in sleek bezel settings. No fuss. No distractions. Just geometry and light.

Set in 14k yellow gold with a slim, minimal band, Kate is designed to showcase structure. The cathedral-set open basket lets the stones glow from every angle, while the 5.6mm height makes her stack like a dream - though let's be real, she holds her own just fine solo. \$1,900.

*Kate*

Elegance, engineered.

# *We Offer...*
